

# SEBASTIAN NATALE

FULL-STACK WEB DEVELOPER

---

giordano\_95@yahoo.com | @SebasNatale95 on LinkedIn, GitHub | Montreal, QC.

---

## ABOUT

I'm a Full-Stack Dev, but I've based my experience in the Front-End. Jack of all trades with a couple years of experience working with the SERN stack (SQL, Express, React, Node) but I've dabbled in a bunch of other technologies like .NET and Python Back-End projects, enterprise CMSs like Sitecore and SAS-CDC, other frameworks/libraries like Angular, with some Typescript for good measure, among whatever sparks my interest.

---

## SKILLS

- Front-End tech like HTML, CSS and JavaScript, Bootstrap and jQuery, React and Sass. CMSs like Wordpress, Sitecore, SAS CDC. Dabbled in TypeScript and Angular.
  - Back-End tech like Node, Express, MySQL (and derivatives). Dabbled in .NET, Python/Django.
  - Other "dev checklist" tech like Git, Linux, AWS experience. Arduino stuff sometimes :)
  - Design and multimedia software like the Adobe suite, Logic Pro X and Cubase.
- 

## EXPERIENCE

### FRONT-END ENGINEER

PGD LATAM, from Aug 2021 to Mar 2023

Led or worked with teams in creating multiple web solutions like web sites in Bootstrap, jQuery, full-on apps in React, Sass, or marketing campaigns and mass emails in MailChimp, for clients such as United Airlines, Wells Fargo, Zoetis, and Exact Sciences.

### FULL-STACK ENGINEER

iComm Solutions, from Jun 2020 to Dec 2020

Collaborated on our telemedicine platform on mostly front-end work using React and Typescript, with some back-end tasks in Go and PostgreSQL.

---

## EDUCATION

### FULL-STACK WEB DEVELOPMENT

Acamica, Oct 2019 to Jul 2020

### BASIC PROGRAMMING COURSE

Platzl, July to Nov 2014

### BACHELORS OF ARTS IN AUDIOVISUAL ART AND JAZZ PIANO

Pontificia Universidad Javeriana, 2013 to 2018. I dropped out, but still actively use the audiovisual skills in Front-End work.
